

## HOMWORK MENU: Summer 2<sup>nd</sup> Half Term

### Maths

This half term, we will be looking at **Statistics** and thinking about how we can collect data using graphs and tables.

Use a tally chart to find out how many people in your house like the following foods:

Pizza

Fish and chips

Jacket potato

Spaghetti bolognaise

### Nutrition

In D&T, we are focusing on Nutrition this half term.

We will be making a crumble using lots of different types of fruit. To prepare, think about all the different fruits that you know. Make a list in your book and draw a picture for each one.

House points for those who get really long lists of fruits!

### PSHE

We are looking at Growing and Changing, thinking about not only how our bodies are changing but also how our lives might be.

Write about one thing that has changed in your life over the last year. How did it make you feel?

You might want to think about things like moving house, getting a pet or starting a new school.

### History

In our History work, we will be focusing on the Space Race. I would love to see some fantastic drawings or models of spaceships and rockets! Think about all the different parts you would need on your spaceship. If you would like a photograph to help you, please just ask.

### English

Class 3 are looking at fictional stories and descriptive writing this half term. It has been quite a while since we did some creative writing! Think about your favourite story and try and break it down into parts to think about the structure. What happens in the: Beginning Middle Ending. Can you write and describe the setting of your story? Can you use expanded noun phrases?

*Everyday:* Read with somebody at home. Please record this in your reading journal!

*Every week:* Complete your Maths worksheet and check on Times Table Rockstars.

*Every other week:* Pick something from our Homework Menu to complete! These activities are just a starting point, feel free to take them in any direction you like.
